- Structure your presentation to achieve your objective
- Plan the modalities: speaking, collaborative work, etc.

- Mobilise participants in advance with Webex

Facilitating at a distance with Webex

- Introduce the meeting in a friendly, dynamic and efficient way
- Capture participants' attention and encourage their commitment from the outset
- Applying participative techniques in connection with Webex to optimise interactions and keep participants involved throughout the meeting (meeting, training, etc.)
 - Document sharing
 - Whiteboard
 - Survey
 - Use of the discussion space
 - Working in sub-groups
- Successfully involving everyone, circulating the word, valuing, synthesising
- Encourage reflection and cooperative work by integrating points of view in a constructive manner
- Manage digressions, delicate situations and difficult participants in an assertive manner

Best practices Teams - Boost your remote exchanges

 0.50 Day € 260€ VAT excl. / participant for calendar sessions. Intra-company trainings quotes on demand.

DETAILS

Goals

To be more comfortable using Teams in general, and the software's functionalities adequate for facilitating exchanges (meetings, training courses, etc.) at a distance.

To put into practice, with the help of Teams, participative techniques at a distance to capture and maintain the attention and involvement of participants throughout the event.

Prerequisite

Good basic knowledge of Teams.

Contents

Teaching method

Participative training, combining the learning of office functions and the corresponding good practices.

Programme

Teams and online exchanges

- Teams recap
- Challenges of remote professional meetings; role of the facilitator
- Keys to the success of a participative remote moderation

Getting organised and prepared with Teams

- Defining an achievable objective in a short time frame
- Structure your presentation to achieve your objective
- Plan the modalities: speaking, collaborative work, etc.

- Mobilise participants in advance with Teams

Facilitating at a distance with Teams

- Introduce the meeting in a friendly, dynamic and efficient way
- Capture participants' attention and encourage their commitment from the outset
- Applying participative techniques in connection with Teams to optimise interactions and keep participants involved throughout the meeting (meeting, training, etc.)
 - Document sharing
 - Whiteboard
 - Survey
 - Use of the discussion space
 - Working in sub-groups
- Successfully involving everyone, circulating the word, valuing, synthesising
- Encourage reflection and cooperative work by integrating points of view in a constructive manner
- Manage digressions, delicate situations and difficult participants in an assertive manner

Best practices Forms - Designing a relevant survey

 1 Day € 430€ VAT excl. / participant for calendar sessions. Intra-company trainings quotes on demand.

DETAILS

Goals

Developing different kinds of questionnaires

Prerequisite

Be familiar with the Office 365 environment

Contents

The interface

- The Office 365 environment and its different tools
- Presentation of the Microsoft Forms application
- Customizing the appearance of Forms

Getting comfortable with Forms

- Creating a basic form or questionnaire with Microsoft Forms
- How to define mandatory fields on a question
- Distributing the finished form or questionnaire
- Generating surveys and polls
- Sharing and duplicating a forms file
- Stop sharing a forms file

Using Microsoft Forms with One Drive / Sharepoint

- Creating a form from One Drive / Sharepoint
- Editing a forms document created from One Drive / Sharepoint

Analysing responses

- Viewing and analysing results with Microsoft Excel (Power Automate)

The different types of questionnaires

- The different types of evaluation: diagnostic, formative, summative
- Before you start: think, conceptualise before you act
- Designing a relevant questionnaire
- What educational objectives?
- Choice of question type(s)
- Structure, hierarchy of questions, guiding / leading thread
- Use / insertion of diagrams, photos, etc.

The different types of questions and their pros and cons

- True / False
- MCQS
- Matching
- Open (or semi-open) short answer question
- Numerical answer (with range)
- Questions to reduce the effect of chance

Take care in writing the form

- The rule: understandable text without any interpretation
- Keep the statement short, unambiguous, precise and complete
- Avoid negative statements
- Lighten the reading workload
- Reduce the effect of chance and if necessary increase the difficulty

Set up a scoring system (score quiz)

- Questions to ask: can there be one or more correct answers per item?
- Question weighting: will all questions be valued equally or not, depending on the relative importance of the items assessed?
- How should correct answers be valued?

- In the case of summative evaluation mainly:
 - Is an incorrect answer ignored or penalised?
 - Does the absence of an answer lead to a penalty or not?
 - Are there any questions for which a wrong answer is eliminatory?
- Test the questionnaire: useful for refining the writing and marking.

Best Practices - Using efficiently social networks for the business

 1 Day € 430€ VAT excl. / participant for calendar sessions. Intra-company trainings quotes on demand.

DETAILS

Goals

The training will allow you to detect the networks that fit your needs and set up your visibility strategy.

Prerequisite

Know the Windows environment and know how to use a web browser.

Contents

Google Business

- Introduction
- Create your business in Google

Facebook

- Introduction
- Create your profile
- Preparing your Page
- Creating your page
- Making your page alive
- Promotion

Twitter

- Introduction
- Create your profile
- Promoted Tweets

LinkedIn

- Introduction
- Create your profile

- Create a Business page
- Create Articles

Impact visuel

Best practices PowerPoint – Prepare your presentations

 1 Day € 430€ VAT excl. / participant for calendar sessions. Intra-company trainings quotes on demand.

DETAILS

Goals

Know how to use PowerPoint's features wisely to create quality presentations. Improve the impact of your presentation through careful preparation of text and visual elements.

Prerequisite

Knowledge of the Windows environment and a good knowledge of PowerPoint.

Contents
